

Abacus Hotel.

Maximise your yield with the most widely used GDS hotel booking system

Abacus Hotel provides vast hotel content supported by an overwhelming 88,000 hotel properties across 300 chains worldwide. Be it for leisure travellers or corporate customers, travel agents will be able to offer their customers more choices to meet their every need. Moreover, Abacus Hotel offers travel agencies real-time room availability, comprehensive room rates and instant room confirmation on a 24/7 basis through our enhanced connectivity, Direct Connect Availability and Direct Connect Shop.

Key Benefits

Provides vast selection of hotel properties content

Abacus Hotel provides travel agents a wide range of hotel content from 88,000 hotel properties that suit every traveller's needs, be it corporate, business or leisure segment, all via a single point-of-sale.

Increases revenue opportunities for travel agents

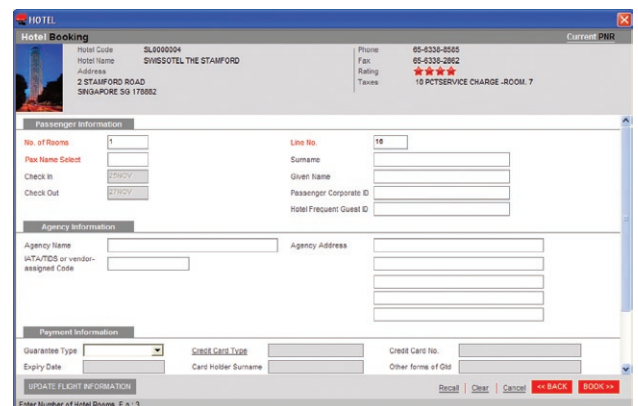

Book with Abacus Hotel and earn commission payouts from the hotels on every materialised hotel room night. This provides additional source of revenue for IATA or TIDS travel agents.

Provides real-time hotel information

When hotels participate at the enhanced connectivity level of Direct Connect Availability or Direct Connect Shop, travel agents are able to access hotel availability, rates, terms and conditions in real-time, thereby providing them with greater convenience and the most updated offerings through Abacus Hotel. Travel agents are also able to view the latest hotel promotions with a click via the banner ads.

Provides easy-to-use hotel booking tool

Abacus Hotel is fully automated, offers instant room availability and immediate booking confirmation on a 24/7 basis. Travel agents will be able to generate more sales as they will find it a breeze to book through the system with the new user-friendly graphical user interface of Abacus Hotel. The user interface will remove the hassle of remembering cryptic entries and will increase operational efficiency. Communication and administrative cost will also be significantly reduced.

Abacus Hotel Booking Image

Booking hotel rooms with Abacus Hotel certainly comes with a range of far-reaching benefits. It is truly the indispensable connectivity tool for any travel agent who wants to achieve faster turnover and higher sales.

Key Features

Powerful search capabilities & sorting functionality

Looking up client-specific requests for hotel facilities like data ports in the room, health club facilities, Frequent Flyer participation programmes and lots more is now a breeze. Finding the closest hotels to customer's destination e.g. Disneyland, Harrods, etc. are now just a few clicks away. Travel agents can easily sort for their preferred Hotel Name and Prices quickly in ascending and descending order.

Unique negotiated rate capability

Abacus Hotel allows travel agencies to choose their preferred rate code (Client ID) for each corporation. Travel agencies no longer need to remember the various rate codes assigned by the hotel chains. This makes searching for the negotiated rates far easier.

Convenient Geo-coding

This extremely useful feature provides the precise location of hotels and their surrounding attractions. It improves the searching process and results in finding hotels that meet customers' requirements. Be it a convention centre, a famous street or a popular landmark like the Eiffel Tower; Geo-code search allows travel agents to find the hotels closest to customer's preferred destinations. Hotel maps can also be easily retrieved with instant update on the hotel's location.

These value-added services help customers gain confidence in booking through Abacus' travel agencies, leading to the fostering of a pleasant, long-term relationship.

Enhanced graphical user interface

No more complex entries are necessary. The new user interface of Abacus Hotel removes the hassle of remembering cryptic entries and it will guide travel consultants through the booking process. The Quick Tips also serves to prompt important reminders to travel agents.

Increases potential commission

Abacus Hotel automatically sends out travel agencies' IATA or TIDS numbers to the hotel CRS. These are then decoded to reflect the official agency's name and address to ensure timely receipt of travel agency commission from the booked property. Abacus has negotiated preferential terms for travel agents to participate with Pegasus Commission Processing to ensure speedier collection from hotel partners. Our travel agents are encouraged to enrol with Pegasus Commission Processing – a renowned commission collection agency specialising in third party commission collection.

With commission collection left to the experts, travel agencies get greater peace-of-mind to administer their other tasks.

Seamless integration

Book through Abacus Hotel and have the hotel segment integrated into the PNR automatically. All booking information including the full hotel name, confirmation number and room rates can be printed in the itinerary or made available online to the customer through Abacus VirtuallyThere. Agency can now perform more tasks with less coordination.
